## ABOUT EAP

## A COMPLETE SOLUTION

---

EAP (Enviro Associated Products) pays as much attention to the product and where the origin of its raw materials to minimise the company's environmental impact on the planet.

Our tissue and paper products are made from responsible and non-controversial sources. Additional to that, all of EAP's qualified manufacturing partners must meet our strict guidelines of environmental credentials such as holding a valid ISO 9001, ISO 14001, FSC® or HACCP certifications.

EAP has been actively promoting its Veora, Ecoz and Duflex brands in Australia, New Zealand and Southeast Asia through a mix of traditional and digital marketing channels. EAP has now successfully established itself as one of the leading company in sourcing and supplying of responsibly made hygiene and food services products. Its Away-from-Home brands such as Veora Exclusive, Veora Everyday, Ecoz and Duflex can widely use in hotels, shopping malls, cafes, restaurants, office facilities and public restrooms.

As a strategic distributor/partner of EAP, you can rely on us to back you up with consistency; quality made products and cost-effective logistic solutions with after sales and marketing assistance so that you can focus on the most critical matter, to grow your business!

## RESPONSIBLE TISSUE PRODUCTS

## VEORA HYGIENE SYSTEMS

More and more businesses from a wide range of industrial sectors are developing environmental policies with the specific goals to purchase sustainable products or products made from responsible sources – such as FSC® certified toilet tissue, hand towel, napkins or HACCP certified food safe cloth wipes.

Because responsible sourcing and sustainability are built into every Veora product throughout its lifecycle. This means that meeting business green procurement targets with a cost-effective solution has never been easier.

### BRAND GUIDE:

#### VEORA EXCLUSIVE RANGE

Veora Exclusive TAD towel range and FSC® certified range will compliment any modern and luxury washroom or working environment that demands the highest quality and best performance.

#### VEORA EVERYDAY RANGE

Veora Everyday range delivers both economic advantages and performance to ensure the best user satisfaction and hygiene experience.

#### ECOZ RANGE

Ecoz solution is specifically designed for high volume facilities with quality and cost-effective solutions in mind. This solution also includes a recycled range made from FSC certified 100% recycled materials for green procurement needs.

#### NEUTRA RETAIL RANGE

Made from FSC® responsible sources, Neutra retail solution offers the best of both softness and performance completed with stylish and value oriented packaging design that would satisfies your customers hygiene needs.

# REDUCING ENVIRONMENTAL IMPACT

## FOOD SERVICES

---

Duflex offers a range of responsibly sourced packaging solutions designed to make your business operation responsible, efficient and effective.

Choosing a Duflex product, whether it is a bin liner or disposable hot cups can make a difference in reducing environmental and social impact in this ever-changing world.

Duflex disposable hot cups are made from FSC® certified materials that share a common Optimal Lid across its 8, 12 and 16oz cups. This solution will not only reduce storage space but also reduce lid wastage for the business operators.

EAP is also a distributor for Elyptol Hand Sanitiser products that effectively kill 99.9999% of germs.

# SUSTAINABILITY CREDENTIALS

## ABOUT FSC®

The Forest Stewardship Council® (FSC®) is an independent, not for profit, non-government organisation established to support environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

FSC® certification is internationally recognised as the world's most rigorous forest product labelling scheme. It is in fact the only forest label supported by environmental groups such as the World Wildlife Fund, Greenpeace and The Australian Conservation Foundation, and by major forest product retailers.

The FSC® label represents a shared commitment to responsible forest management across environmental, social and economic interests.

For more information, please visit: [www.au.fsc.org](http://www.au.fsc.org)

## ABOUT HACCP

HACCP is an internationally recognised method of identifying and managing risk and, when central to an active food safety programme, can provide vendors, the public and government sector bodies with a high degree of comfort that food safety is being taken seriously and is well managed. Today, many of the world's best manufacturers and vendors use the system as a basis for their quality management programmes.

Suppliers to the food industry can have their products endorsed as food safe under HACCP Australia guidelines, providing a strong marketing platform to the food safety conscious sector of the industry.

For more information, please visit:  
[www.haccp.com.au](http://www.haccp.com.au)

## ABOUT FOOD SAFE

The international symbol for "food safe" material is a wine glass and a fork symbol. The symbol indicates that the material used in the product is considered safe for food contact. This includes food and water containers, packaging materials, cutlery etc.

EAP's napkin and paper towel products are made from responsible sources and SGS tested to certify it is safe for food use.

For more information, please visit:  
[www.sgs.com.au](http://www.sgs.com.au)

## TAD PAPER TOWEL RANGE

TAD (Through Air Dried) paper is produced by blowing air through the fibres to deliver the softest and bulkiest of tissue. The end result is a more voluminous and softer paper towel that still offers strength and high absorbency. The most striking effect of a TAD paper towel is its exceptional capacity to hold up to 16 times its own weight in water, which is almost double the capacity of a conventional paper towel. Our Veora Exclusive TAD paper towel range is also made from FSC® certified sources.

**CODE: 22800F**  
**VEORA Exclusive TAD**  
**Multifold Towel 1-Ply**
