INTERCLEAN

The InterClean Group is comprised of InterClean Australasia and InterClean Managed Services, which work together to create and implement the best possible cleaning solutions and digital management systems for the healthcare and facility management industries.

Our approach to cleaning management is systems and solutions based. We don't just throw products at a problem, but rather look at the big picture and help our distributors and end users come up with strategies to turn their management goals into a reality at the operational level. We understand and believe in the importance of training employees properly, communicating cleaning plans and procedures clearly, managing the cleaning process and making accountability and autonomy part of the cleaner's responsibility.

InterClean sources products, ideas and management systems from all over the world and are constantly unearthing new and innovative solutions to the cleaning challenges your industry faces. Our passion is finding new and improved ways to approach cleaning, raising the standard of cleanliness within your hospitals, nursing homes, airports & schools.

If you're passionate about best practice and want the best systems in your facility we would love to work with you to achieve your goals.
