# The *heart* behind Luvme

Our luv flows through everything we do.

## Our luv for *family*

Luvme was founded with a deep love and passion to see our children thrive. We want to leave a legacy of something greater than us, that our children's children can continue to be a part of for years to come.

## Our luv for *the earth*

1.5 billion nappies end up in landfill every single year in Australia alone. We are set on changing the narrative through innovative, eco-friendly products that are kind to our earth as well as our little ones.

## Our luv for *our products*

We love what we do. Every product is meticulously designed by a team of mums and dads to be super-luxe, multi award-winning, top performing and kind to the earth without sacrificing on quality.

## Our luv for *you*

We understand how important it is to use only the best products for our little ones. That's why we only use the highest quality ingredients and steer clear of any nasties in our products.

#### Wonderful Nappies

The Nappy is soft and is a great fit. I used them for my first baby and now come back to this nappy for my second as nothing else has compared to these. I have had no blow outs, no rashes or irritation. Very well done works great for both boys and girls

#### Love these wipes

Love that these wipes contain no nasties and are biodegradable, making them gentle on bubs skin and on the planet. They're durable enough to clean up the big messes too! Great being able to order them as a subscription so we never run out.

#### The perfect gentle cleanser

I have been using these cleansing pads for well over a month now and I absolutely love them! They are so so soft and gentle on my face. I use mine about 1-2 times a week with my cleanser when I do my night skincare routine and have noticed it works just as well as a clay mask to clear up my skin. I love that they're reusable too! I can just put them all in with my load of washing and they come out good as new.

## What Luvme *families* are saying

★★★★★

#### Luvme Eco Plant Wipes 12 x 80pks

I would like to express my thank and gratitude to Luvme for the excellent product "Eco Plant Wipes". I always purchase a carton "12 x 80". They are an excellent product for not only babies but adults as well. I not only use for personal use but also on my face to remove makeup and dirt and daily grime. I have no issues in recommending this product or this company. Thanks again Lynne

#### The softest nappies on the market

I have been using these nappies for almost two and a half years. Now both my toddler and newborn are in them. The quality is amazing they are so soft on precious skin and not full of toxins. Never had nappy rash or skin irritations. I recommend them to everyone. Also having a subscription is great, one less thing to worry about.

#### Amazing!

I have used pandas for the entirety of my 11 month olds life and finally decided to make the switch to cloth. These are super easy to fit, fold and clean, and the bamboo liners are so soft and fluffy. So far I've had a really great experience!
