ABOUT AUSTAR PACKAGING

Family owned and operated, Austar Packaging manufactures and distributes high quality commercial and industrial grade plastic consumables and packaging solutions for clients across Australia. With over 15 years of experience in the industry and a series of distributor and wholesale partners in every state across Australia, you can rest assured knowing that Austar Packaging can take care of your plastic consumable needs.

Our expert industry knowledge is backed by years of research to establish tried and tested solutions for each of our clients, and supported by a standard of same day or 24hour delivery for orders big and small/ Additionally, we attain a loyalty to each of our distribution and wholesale partners that is second to none.

Over the organisations 14 years of operation, the team at Austar Packaging have had extensive experience trailing materials, testing their durability, and rendering high-standard quality finished products. This experience enables the organisation to deliver consistently high results that won't disappoint.

In addition to our standard service offerings, Austar Packaging offers a range of tailored solutions to our clients, including Custom Packaging and Product Design. These packaging solutions are guaranteed to meet the expectations of every creative brief through a partnership with high calibre packaging designers and experts.

COMPOSTABLE WASTE SOLUTIONS

Envirostar Compostable Bin Liners are made from Compostable material and printed with approved eco-friendly inks making them the best alternative to traditional plastic bags. They are produced from renewable resources such as corn and ensure the smallest impact on our planet and valuable resources.

Certified 100% all natural GMO Free and designed to meet stringent worldwide standards, these bags can be composted in both home and suitably equipped council or commercial composting facilities. Certified Compostable to Australian Standards AS4736 BPI and AS5810 Home Compost along with European and International Standards.

-  **100% Compostable**
-  **100% Renewable Resource**
-  **Environmentally Friendly**
-  **GMO Free**
-  **Plant Based**
