

A reliable supply chain.

What's the use of a product if it's not within reach?

Clinical and Care Facilities cannot afford to run out of clinical products. They place an unwarranted strain on resources, both physical and economic. A supply chain you can rely on is essential. With a well-stocked local warehouse and a proven, reliable supply chain, Reynard has a wide range of products to hand. Products that work first time, so you don't need to worry, especially where clinical needs are paramount. And prompt delivery is assured through an established network with national and local distributors. Don't wait for the right product. Call us now on 1300 667 199.

About

Reynard Health Supplies was established in New Zealand in 1999 and today is the number one supplier of surface cleaning & disinfection wipes, specialist patient care wipes and Clinical Skin Preparation products to hospitals in New Zealand and Australia.

Reynard is a dynamic company specialising in manufacturing and distributing the highest quality, and most cost-effective products within the healthcare industry.

Our range of products is constantly evolving to meet a wide range of infection control and patient care needs within the healthcare environment.

Our UK based technical staff have been at the leading edge of new product development with enhanced clinical efficacy in the global market for over 30 years.

Recent company Research and Development projects include the launch of our improved formula for our Premier Detergent & Disinfectant wipes (June 2020).

In addition to New Zealand and Australia, Reynard branded products are widely used across the public and private healthcare sector in the United Kingdom and Europe, as well Asia and the Middle East.

In Australia, Reynard has on going supply contracts with NSW Health, Queensland Health, Health Purchasing Victoria, SA Health and Western Australia Health for a wide range of products from surface cleaning and disinfecting wipes to patient care products such as 'Bath In Bed Wipes' and 'Shampoo Caps' as well as our range of Clinical Skin Prep products.

Throughout the Covid-19 Pandemic, Reynard has prioritised Australian health organisations with uninterrupted supply and has supplied much more to cover shortfalls caused by other suppliers' inability to meet demand.

Reynard Health Supplies is owned by a dedicated group of Australian and New Zealand shareholders who are all actively and directly involved in the day to operation and development of the business worldwide. As responsible businesses, we pay tax in both Australia and New Zealand to support government funding of health services in both countries.

Used extensively in the private sector and every public healthcare system in Australia.

Reynard is reassurance.

Health Supplies

Premier Detergent & Disinfectant Wipes

The all-in-one wipe that has the best in class performance for cleaning and disinfection. Reynard premier detergent & disinfectant wipe is a proven, single step solution to cleaning and disinfecting surfaces and equipment. Our new, gentle formula is optimised for use in both clinical and non-clinical settings on surfaces and equipment.

Proven to Kill 99.999% of pathogens and viruses and is tested and ARTG listed for use against including SARS and COVID 1 & 2. With superb formula retention and extreme traction to pick up dirt and pathogens where other, thinner cloths simply push it around the surface.

Cleaning & Disinfection

Product code	RHS216	RHS218
Wipes per pack	50	100
Packs per carton	12	6
Wipe size	33 X 22cm	33 x 22cm

Cleaning & Disinfection

Product code	RHS219	RHS205
Wipes per pack	200	280
Packs per carton	12	2
Wipe size	22 X 20cm	28 x 25cm

✓ Reynard Premier Disinfectant Wipe is a **28%** thicker cloth

Note: this is a comparison with Reynard's RHS210, RHS216 & RHS218 cloth. Our RHS205 & RHS219 cloth is a thinner thermal bond cloth with similar thickness to the competitor but still larger.

Biodegradable Premier Detergent & Disinfectant Wipes

The world's first 100% biodegradable clinical use wipe. An environmentally friendly version of our highly effective original premier detergent & disinfectant wipe. Made with a specially developed, soft yet strong bamboo cloth that boasts superior formula retention and extreme traction to pick up dirt.

Disposable Microfibre Cloths

Chemical-free cleaning: optimal infection prevention, superior performance and improved productivity. Convenient and disposable, Reynard Microfibre Cloths effectively remove dirt without the use of harsh chemicals, they can be used wet, dry or with steam for the most efficient clean. These highly durable, cost-effective wipes are inexpensive enough to use once, but durable enough to use again and again.

Reynard microfibre range was specifically designed to deliver a high quality, chemical-free clean and reduce the potential for cross contamination. Microfibre technology is proven to eliminate 99% of all dirt, dust and pathogens, including Clostridium difficile. The unique fibres do all the cleaning, removing the mechanical action usually required.

Shampoo Cap

A single step cleansing and conditioning solution that leaves hair smelling fresh and feeling great. The rinse free cap is impregnated with a gentle, conditioning shampoo that is designed to release when massaged. The used solution is then absorbed back into the cap, along with any dirt, EEG gel, debris or blood.

Designed to be used where traditional showering or hair washing solutions are not available and are perfect for low mobility situations or where traditional solutions are not optimal.
