## SURFACE SANITISERS

	<b>SANITISER O2</b> Peracetic acid based product used for sanitising food and dairy processing areas where use of chlorine is unsuitable to use.	<b>SANITISER O6</b> High concentration Peracetic acid based sanitiser used for general bleaching and disinfection. Non-corrosive to stainless steel equipment under both hot and cold conditions.	<b>STERICHLOR</b> General purpose cleaning/sanitising powder with chlorine release upon dissolution in water, effectively removing stains, deodorising, and sanitising surfaces.
<b>Features</b>	Ideal for fogging Rapid microbial kill rate	High concentrated peracetic acid Rapid microbial kill rate	Stable long-term chlorine content Breaks down toughest food stains
<b>Approval</b>	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA	<input checked="" type="checkbox"/> HALAL <input type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA

# Hard Surface & Membranes

## ANTIFOAM

	<b>ANTIFOAM FG</b> Food grade 30% antifoaming agent used as a foam depressor in many food processing operations. It helps quickly destroy air bubbles and cause breakdown of the foam layer.	<b>ANTIFOAM MIFG</b> Food grade 10% antifoaming agent used as a foam depressor in many food processing operations. It helps quickly destroy air bubbles and cause breakdown of the foam surface.	<b>DEFOAMER 5600FG</b> A water dispersible food-grade proprietary blend of vegetable oils and non-ionic surfactants used as a foam depressor in many food processing operations.
<b>Features</b>	Heavy duty de-foaming agent Food-grade	Heavy duty de-foaming agent Food-grade	Heavy duty de-foaming agent Food-grade

## ALKALINE FOAMING CLEANER/SANITISER

	<b>CCF-5</b> Heavy duty chlorinated foam cleaner ideal for removing fat, oil, protein soils and food residues from stainless steel surfaces, walls, floors and conveyor belts.	<b>CHLORFOAM</b> Chlorinated alkaline cleaner and sanitiser for food processing areas. Suspension agents and alkaline components provide rapid penetration and soil removal.	<b>HYPOFOAM</b> Chlorinated foaming cleaner which provides rapid penetration and removal of stubborn fats and proteins. It prevents soil re-deposition due to built in sequestering agents.
<b>Features</b>	Stable high density foam Safe on most metal surfaces	Stable high density foam Safe on most metal surfaces	Stable high density foam High alkali content
<b>Approval</b>	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA

## ALKALINE FOAMING CLEANER/SANITISER

	<b>HYPOSF SG</b> Chlorinated soft metal safe foam cleaner which provides rapid penetration and removal of stubborn proteins and fats. Built in corrosion inhibitor.	<b>PROFOAM</b> A non-chlorinated, high foaming cleaner sanitiser for use in all food preparation and storage areas. Contains quaternary ammonium compound providing excellent grease and protein removal properties.
<b>Features</b>	Built-in corrosion inhibitor Stable high density foam	Excellent protein removing ability Strong emulsifying & deflocculating ability
<b>Approval</b>	<input type="checkbox"/> HALAL <input type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA

## ENZYMATIC MEMBRANE CLEANER

	<b>HI-FLUX ENZYME CONCENTRATE</b> Specially blended mixed enzyme solution complemented with a surfactant and a unique buffer system. Helps degrade and remove fats and proteins from membranes and hard surfaces.
	Hydrolyses fats and proteins Effective at wide range of pH
<b>Approval</b>	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA
<b>Classification</b>	HAZ, NON-DG
<b>Availability</b>	   15L 200L 1000L
<b>Code</b>	2170364 2170362 2170365

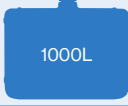

## ENZYMATIC MEMBRANE CLEANER

	<b>HI-FLUX ENZYME QUATRO</b> Specially blended rapid enzyme solution complemented with a surfactant and a unique buffer system. With the power of four enzymes, it targets and helps degrade and remove mixed soils.
<b>Features</b>	Powerful four enzyme blend Unique buffering system
<b>Approval</b>	<input type="checkbox"/> HALAL <input type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA
<b>Classification</b>	HAZ, NON-DG
<b>Availability</b>	 200L
<b>Code</b>	2170363

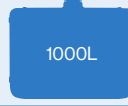

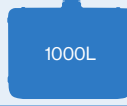

## MEMBRANE PRESERVATIVE/SANITISER

	<b>HI-FLUX MBS</b> Meta Bi Sulphite based sanitiser/preservative especially designed and suitable for sanitising and preserving all types of membranes.	<b>HI-FLUX PRV-G</b> Glycolic acid sanitiser especially designed and suitable for sanitising and preserving all types of membranes.
	Strong biocide Easy in-line sanitation & preservation	Easy in-line sanitation & preservation Improved soil removal
<b>Approval</b>	<input checked="" type="checkbox"/> HALAL <input type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA	<input checked="" type="checkbox"/> HALAL <input checked="" type="checkbox"/> KOSHER <input type="checkbox"/> TGA Hospital Grade <input type="checkbox"/> GECA
